

Transportation Improvements – Florida at Work

Palm Drive Canal (SW 344 Street) Lighting Improvements

Project Summary

Installation of new and replacement of deficient street lighting including the lighting poles, luminaries, foundation, electrical cables, pull-boxes and electrical service for East Palm Dr. from US 1 to SW 172 Ave.

Project Support

The City of Florida City annexed an area of approximately 2.6 square miles located East of US 1 and South of theoretical SW 352 St. East Palm Dr. is the only existing road that connect the areas of the City West of US 1 with the newly annexed area. Currently there is no street lighting on the North side of E Palm Dr. between US 1 and SW 172 Ave. On the South side of the road the existing lighting is deficient.

The City proposes to install street lighting along the North side of E Palm Dr. and replacing the existing lighting on the South side of the road.
